

Water Use Categories & Metrics

Municipal

Residential- Single Family

Metric-GPCD
(specific population)

Residential- Multi-Family

Metric-GPCD
(specific population)

Commercial

Metric-GPCD
(total population)

Institutional

Metric-GPRD
(per "resident")
(specific definitions)

Public/Recreational

(specific definitions)

Metric-GPCD
(total population)

Total Water Loss

(TWDB definition?)

Metric-GPCD
(total population)

Reuse

Metric-GPCD
(total population)

Industrial

Metrics:

gallons per unit of product
(specific definitions)

Agricultural

Irrigated Crops

Metric-AcFt/Acre
(Annually)

Livestock

Metric-GPD per "AU"
("Animal Unit")

* Reuse is more a supply than a use; however, it could have a GPCD metric (more is better)?
