The meeting was called to order at 9:30 am and roll call was taken.

The meeting began with discussion on the draft Industrial, Commercial, and Institutional (ICI) Best Management Practices (bmps) guide that Bill Hoffman drafted. The group discussed the need to host a future conference call on landscape water management plans and landscape irrigation design. This content would then be incorporated in the overall ICI bmp guide. The discussion focused mainly on editorial revisions to the content and as well as some suggestions for expanding the content. Many of the specific comments from the discussion will be reflected in the next version of the draft guide.

The conference call adjourned at 10:30 am.
